## DETAILED ACTION

### *Priority*

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 08/770040, filed on 12/19/1996.

### *Reissue Applications*

2. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 2665

4. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Bouve (USP 5682525).

Bouve discloses (Fig 1-12 and col. 1, lines 5 to col. 14, lines 55) an information retrieval apparatus (Fig 1, Ref 20) for retrieving information from a database (Fig 1, ref 12 is a database which has a registration data including a position data such longitude and latitude, a geographic vicinity having the items of interest for retrieving an additional information; col. 2, lines 10-63) which contains registration data including at least position data and designation information for retrieval of additional information comprising location detection means (Fig 8, Col. 10, lines 61 to col. 11, lines 14 a mobile device has a GPS for detecting the current position coordination of the mobile device) for detecting a current position location of information retrieval apparatus and selection means (Fig 1, Ref 10 has a selecting means for selecting data from the database 12 which corresponding the current position of the mobile device wherein the selected data has a geographic vicinity of the current detected position of the mobile device including the items of interest which uses to retrieve additional information; col. 2, lines 10-63) for selecting data from the database which corresponds to said detected current position location of the information retrieval apparatus, the selected data having position data representing positions in the vicinity of the detected current position location, the designation information corresponding to the said selected data for retrieving the addition information.

***Allowable Subject Matter***

5. Claims 1-5 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter: the prior arts in the record fail to disclose an apparatus comprising a camera for capturing an image and a location detecting for detecting the location of the apparatus and a selecting means for selecting image data from the database which corresponds to the obtained image from the camera; the image data having position data representing the positions in the vicinity of the detected current position location of the apparatus, designated information corresponding to the image data for retrieving the addition information within a structure of the claim.

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hudetz (USP 5978773) discloses a method and apparatus for using a scanner or bar code reader for getting the serial number of the UPC and using this information for accessing a database server on the internet for retrieving the information which corresponds to the UPC number wherein the selected information including a UPC number and designation data for using to retrieve addition information.
